Single Door Refrigerators and Freezers

- Electronic thermostat with external digital LED display for accurate control and easy reading.
- Interior cabinet is bright white aluminum liner with full stainless steel floor with coved corners.
- Three adjustable, heavy-duty epoxy coated wire shelves.
- Self-contained capillary tube system using environmentally friendly CFC free refrigerant (R404A in freezers and R134A in refrigerators).
- Exterior cabinet construction consists of full stainless steel front and sides.
- Condensate heating element built into condensate pan for efficient evaporation of excess water.
- Bottom mounted compressor for more efficient operation in coolest area of the kitchen.
- Front accessible, bottom mounted condensing unit is mounted on slide out rack for easy maintenance.
- Easy to mount casters (two lockable) are standard with all units.
- Self-closing doors that remain open at 90 degrees.
- Magnetic door gasket is removable and replaceable without tools.
- Field reversible, lockable door with foamed-in-place recessed handle.
- Larger fan motors and blades for more efficient air flow ensuring faster recovery times.
- Unit holds full size sheet pans front to back. With optional Pan Slide Kit (#65100) you can outfit half of the interior (full interior with two kits) with racks that hold eight standard sheet pans.
- Tested to NSF Standard 7 requirements for open food storage.
- Full one year parts and labor warranty and a five year compressor warranty.
